

John Wootton

22.8.20.

I fully support the LMCLT in the endeavour to house local people

My back ground in this regard :-

I was an elected member of Waverley Borough Council in Surrey for 27 years.

For all of that time I was member of the Housing Committee including being the chair person for three years.

During that time the Council launched an independent social housing company of which I became a member, subsequently becoming the chairperson.

I very strongly support the abolition of the current law that allows 'No Fault Eviction' (now temporarily suspended )
